D. INFORMATION ON ENROLLING MORE THAN ONE CHILD (DOUBLE-CO-OP)

- " A family may enroll more than one child if the required adult/child ratio is met and it does not require families with only one child to co-op more than once a week.
- " Enrollment of more than two children in the co-op at one time is subject to Board review.
- " Twins or siblings enrolled in the same class or different classes will be charged 100% tuition for each child unless awarded a scholarship.
- " If a family has two children in the same class the parent/caregiver will work in the classroom once a week, to allow children to learn separate from their parent/caregiver.
- " For other class combinations, the double co-oping parent/caregiver will be regularly scheduled to work once a week, alternating months for each class.
- " Certain conditions (maternity leaves, health issues, enrollment etc.) might require double co-op families, in all class combinations, to be scheduled *up to full time for both children*.

**Notice: All students will be at least 19 months at the start of school to comply with current insurance policy*
